

Do you need a place
to deliver your
courses on-line?

We take
care of
everything

With **Quadam Mobile** students can easily follow the course on their mobile phones.

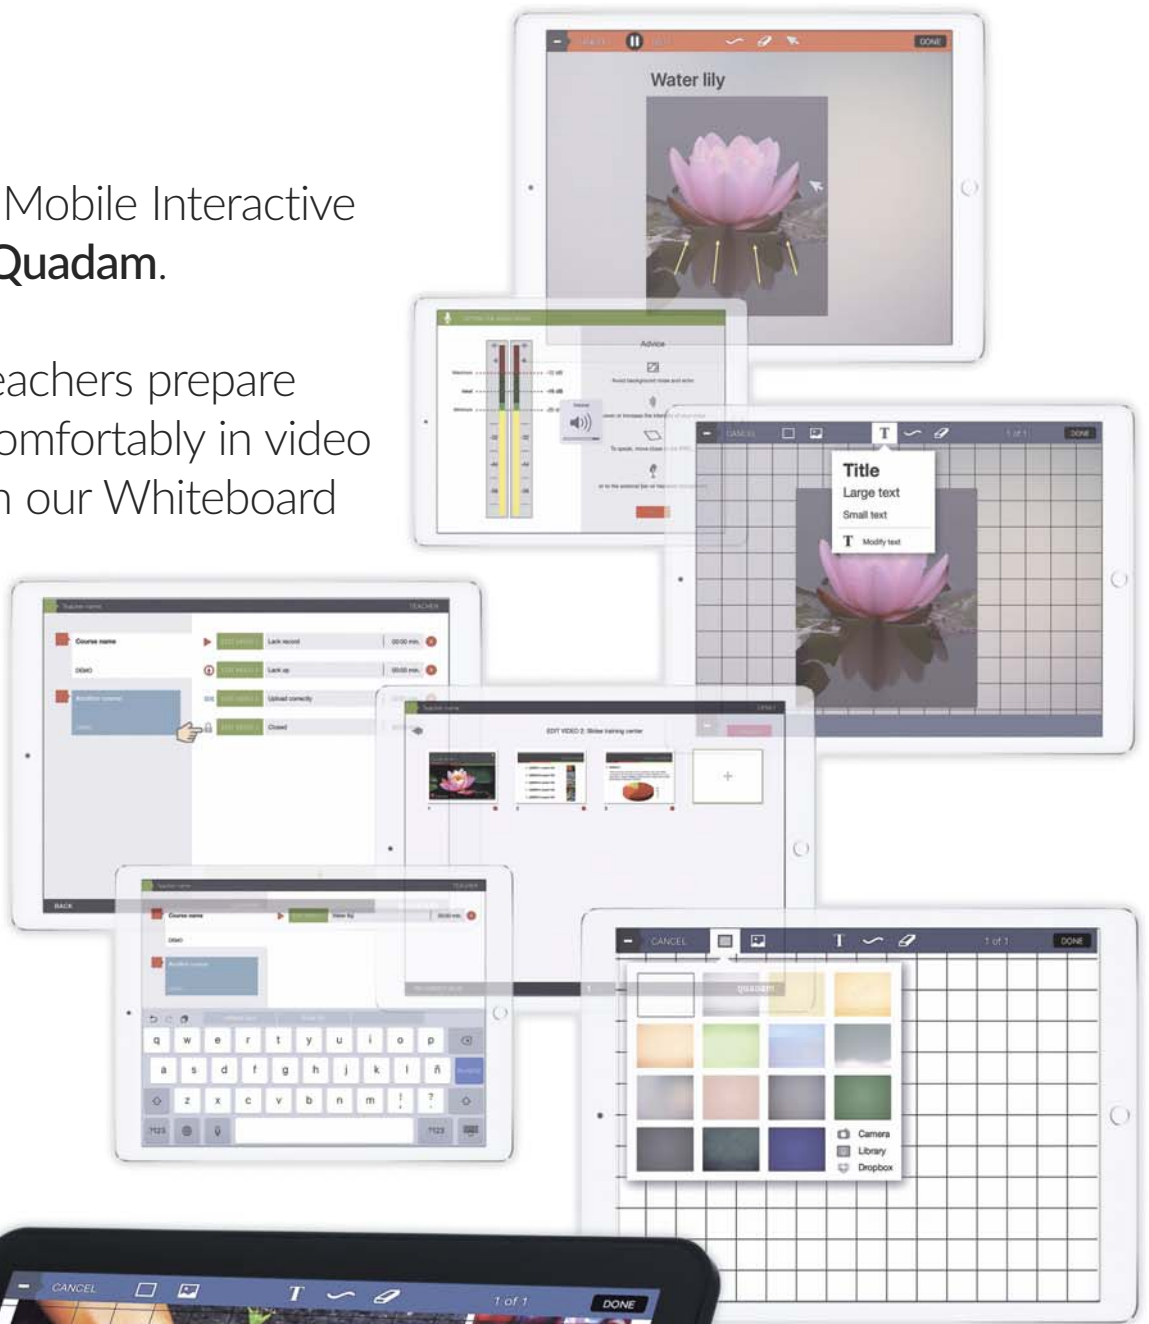

For teaching centres, computer problems become a thing of the past.

Quadam takes care of everything a centre can delegate, including delivery of the printed diploma.

Organize your Mobile Interactive Courses with **Quadam**.

At **Quadam**, teachers prepare their lessons comfortably in video format through our Whiteboard app for iPad.

Quadam is only available for quality on-line courses, with a starting and an end date. Course lessons are recorded beforehand in video format and the teacher addresses a group of students participating in forums on queries and discussions of case studies.

MONTH

The platform enables teachers to easily handle courses with many students.

Your courses
in your pocket.

With **Quadam Mobile** students can participate in the forums, post photos and videos and, if they wish, follow the lessons.
